GUIDE TO USING THE REGULATIONS

The regulations are organized into three main segments, which are color coded to help you find the information you seek more quickly. These segments and their coordinating colors are:

General Information — All segments color coded in purple are designed to provide sportsmen with general information on license purchases and big game hunting rules and regulations. Also, answers to some of the most common questions asked by sportsmen, as well as Montana's sunrise and sunset tables, can be found under these purple color-coded segments. In addition, the map segments under a purple color bar will define regional administrative boundaries and help you to easily locate each regional headquarters.

General Big Game Licenses and Season Dates — All segments color coded in red are designed to provide sportsmen with detailed, species-specific information for the type of licenses required to hunt: deer, elk, black bear, and mountain lion. Also, each hunting district's general season and archery season opening and closing dates, as well as each hunting district's bag limits can be found under these red color-coded segments.

Special License and Permit Drawings — All segments color coded in green are designed to supply sportsmen with the information they will need to properly apply for all licenses and permits that are awarded through special drawings. The special drawings are for a limited quota of licenses and permits for: deer, elk, antelope, moose, sheep and goat. Under these green color-coded segments, sportsmen will also find specific information on season dates, tentative harvest quotas set by each hunting district and the sportsmen's reporting requirements after an animal is harvested.

THANKS!

Licenses

Checking Stations

All sportspersons are required to stop as directed at all designated check stations on their way to and from hunting and fishing areas, even if there is no game or fish to be checked.

Closed Areas

- State Game Preserves and National Parks are closed to hunting of big game animals. For hunting privileges on Federal Wildlife Refuges, inquire at the local refuge office. Big game hunting privileges on Indian Reservations are limited to tribal members only.
- Wildlife Management Areas are closed to public entry from the day following the end of the general deer/elk season or December 1, whichever is later, to May 15 each year, as posted.

Clothing Color

- Any person hunting or accompanying a sportspersons as an outfitter or guide must wear a minimum of 400 square inches of hunter orange (fluorescent) material above the waist, visible at all times.
- Bowhunters pursuing big game animals with bow and arrow must wear a minimum of 400 square inches of hunter orange (fluorescent) above the waist if firearm season is open in the hunting district and for the species you are pursuing. The hunter orange requirement is not in effect during the special archery seasons, which are specifically listed in these regulations as: "ARCHERY ONLY".

Evidence of Sex Requirements

- It is illegal to possess or transport the carcass of any big game animal unless evidence of the animal's sex and species remains **naturally attached** to its carcass or a portion of the carcass.
- In most cases, the easiest way to meet this requirement is to leave the animal's head attached to the carcass. However, if the animal's head is removed, some other evidence of sex must remain naturally attached to the carcass or a portion of it.
- The following are considered lawful evidence of sex:
 - Horned or Antlered Game Animals:** Male—head with the horns or antlers naturally attached, penis, testicles or scrotum. Female—head or udder (mammarys).
 - Bears and Mountain Lions:** Male—testicles or baculum. Female—vulva.
- Evidence of an animal's sex and species must be retained until the animal's meat is processed (**cut and wrapped**) or until a bear or mountain lion is checked by a department employee or delivered to a taxidermist.
- Sportspersons harvesting a big game animal, if required by a department employee, must physically return to the kill site for inspection and on demand show complete head.

Hunting Hours

Authorized hunting hours for the taking of big game animals begins one-half hour before sunrise and ends one-half hour after sunset each day of the hunting season. See official sunrise-sunset table on page 46 of these regulations.

Littering

A person convicted of littering while hunting, fishing or camping shall forfeit his license or privileges to hunt, fish or camp within Montana for a period of one year.

Marked Animals

It is legal to shoot big game animals that have radio collars, neck bands or markers, but markers and radios must be returned to the Department of Fish, Wildlife and Parks.

Motorized Vehicle Travel

A common question asked by a sportsperson is "May I drive off established roads and trails to retrieve game?" There is no standard answer. In all cases, when on private lands, sportspersons must first obtain permission from the private landowner. In the case of public lands, the answer varies. BLM public lands are open to motorized travel unless designated closed. On National Forest lands, restrictions to motorized travel are described on Travel Plan maps available at local U.S. Forest Service offices. On National Wildlife Refuges, all off-road travel is prohibited. For further information, contact the appropriate land governing agency. See page 5 for addresses and phone numbers.

Outfitters and Guides

- Outfitters and guides are licensed by the Montana Department of Commerce. For information, verification or a complete listing of licensed outfitters and guides telephone the Department of Commerce at (406) 444-3737.
- Any outfitter utilizing federal lands or lands not held in fee title by the outfitter must be licensed by the Department of Commerce.

Property Laws

- **Permission to Hunt Big Game** — Montana law requires that big game hunters must have permission of the landowner, lessee or their agent before hunting big game animals on private property, regardless of whether the land is posted or not.
- **Obtain Permission Early** — Approximately 70 percent of Montana's hunting districts are comprised of private land. In some hunting districts, it is difficult to obtain access to private lands. Sportspersons should secure landowner permission before applying for a special license/permit in these areas.

Weed Free Hay Programs

- Certain areas of Montana require the use of certified weed free hay, straw and pellets for livestock to prevent the spread of noxious weeds.
- Please contact offices of the Montana Department of Fish, Wildlife and Parks, U.S. Forest Service, Bureau of Land Management and Montana Department of Agriculture for information about the area where you will be hunting.
- Please see page 5 if you are transporting horses or mules into Montana.

AVOID VIOLATIONS OF THE LAW

Immediately after killing a big game animal, all hunters must properly validate the appropriate license/tag and securely attach it to the animal so that it is clearly visible.

Proper validation is easy:

- 1) Locate the appropriate month and day the animal was killed and completely cut away (notch out) the month and day designations. The license/tag shown below, for example, has been properly validated for an animal taken on November 17.
- 2) **Be Careful!** The correct and appropriate month and day designations must be removed completely from the license/tag. Removing more than one month or one day designation invalidates the license/tag.

Firearms

- **Caliber**—There is no caliber limitation (except as specified under shotgun and muzzleloader) for the taking of big game animals in Montana. However, the use of poisonous, explosive or deleterious substances on or in any bullet or projectile is prohibited. Match the caliber and firearm to the size of the animal hunted.
- **Shotgun**—Sportspersons are prohibited from shooting deer or elk with shotguns, except with loads of 0 buck, 00 buck or rifled slugs.
- **Muzzleloader**—In hunting districts restricted to archery, shotguns and muzzleloaders, the muzzleloaders must use a round ball .45 caliber or greater.

Game Limits

No person may kill more than one big game animal of any one species in any one license year, unless otherwise specified.

Hunter Education—Firearm and Archery

- Persons applying for the 1993 special drawings must be at least 12 years of age before September 15, 1993, and provide required proof of successfully completing a Hunter Education Program at the time of applying for the special drawings.
- Resident sportspersons 12-17 years of age are required by law to have a Montana Hunter Education Certificate of Competency in the safe handling of firearms before they may purchase a hunting license. The Certificate of Competency is awarded to resident youths who have successfully completed Montana's Hunter Education Program.
- New residents of Montana 12-17 years of age need to check with their local Fish, Wildlife and Parks office to determine if their out-of-state hunter education certificate can be accepted and to receive a Montana Hunter Education Certificate.
- Non-resident youths 12-17 years of age are required by law to submit a copy of their home state hunter education certificate verifying successful completion of the course when applying for any hunting license in Montana.
- Both resident and nonresident youths 12-17 years of age who wish to archery hunt, must provide a Certificate of Competency in the safe handling of bow hunting tackle from the National Bowhunter Education Program, in addition to the Certificate of Competency in the safe handling of firearms.
- Adult (18 years of age or older) **first-time** bowhunters must show proof of an NBEF Bowhunter Education Certificate or present any prior years bowhunting/archery stamp, tag, permit or license from any state or province to purchase a Montana bow and arrow license.

- **Trespass** — Montana law states that lands can be closed to the public either by posting the land or through verbal communication by landowners or their agents. If permission is granted, the landowner may revoke permission by personal communication at any time. An orange post means no trespassing without permission.

—**Posting Requirements** — Notice denying entry to private land must consist of written notice on a post, structure or natural object or by painting a post, structure or natural object with at least 50 square inches of fluorescent orange paint. In the case of a metal fencepost, the entire post must be painted. This notice must be placed at each outer gate and all normal points of access to the property, as well as on both sides of a stream where it crosses an outer property boundary line. Sportspersons are reminded that they must have landowner permission before hunting big game animals on private property, regardless of whether the land is posted or not.

Tagging and Transporting Big Game

- **Tagging** — Immediately after harvesting a game animal, sportspersons must cut out the proper month and the day of the harvest from the appropriate license/tag and attach to the animal in a secure and visible manner. If more than one date is cut out, the license/tag is invalid. The properly validated license/tag shall remain with the meat until consumed (including cold storage). If quartered, the license/tag should remain with the carcass or largest portion of the carcass. The license/tag is to remain attached to the hide of a bear or mountain lion until it is tanned.

- **Transporting** — Properly tagged game animals that comply with the "Evidence of Sex Requirements" and that were lawfully taken by the license holder may be transported by an individual other than the license holder. The name, address and phone number of the person who killed the animal should accompany the carcass. It is a violation of the Federal Lacey Act to transport an illegally taken game animal across state boundaries. Federal Lacey Act violations could result in a criminal penalty of \$20,000 and 5 years in prison. All shippers of fish, game or nongame birds, game animals, furbearing animals, the skins of furbearing animals or predator animals, or parts thereof are required to label all packages offered for shipment by parcel post, common carrier (airlines or UPS, etc.) or otherwise. The label should be securely attached to the address of the package and shall plainly indicate the names and addresses of the consignor and consignee and the complete contents of the package (87-3-114, MCA).

Traps—Do Not Disturb

Montana trappers are permitted to trap furbearing animals during designated seasons; predatory, and some non-game animals most of the year. Sportspersons afield who find a trap are prohibited from disturbing the traps or trapped animals.

- Sportspersons are prohibited from wasting any part of any game animal, game bird or game fish that is suitable for food. Game animal parts that are defined as being "suitable for food" are: all of the four quarters above the hock, including loin and backstrap. (The law does not apply to black bear and mountain lion.)
- Sportspersons are prohibited from shooting or attempting to shoot a game animal from a motorized vehicle (car, truck, boat, snowmobile, motorcycle, all-terrain-vehicle, airplane, etc.) even if the vehicle is not moving.
- Sportspersons are prohibited from shooting or attempting to shoot a game animal on, from or across a public road or from the public right-of-way (shoulder, berm or barrow pit) along those highways.
- Sportspersons are prohibited from transferring their license to another person or using a license issued to another person.
- Sportspersons are prohibited from hunting or taking any game animal without having a valid license on their person.
- Sportspersons are prohibited from hunting or taking any game animal by the aid or with the use of any set gun, jacklight or other artificial light, trap, snare, or salt lick, nor may any such aforementioned device to entrap or entice game animals be used, made, or set.
- Youths under 14 years of age must be in the company of a parent or legal guardian when carrying or using firearms for any reason.
- Sportspersons are prohibited from possessing big game heads and/or antlers picked up from the wild except antlers that have been naturally shed.
- A motorized vehicle or aircraft cannot be used to concentrate, drive, rally, stir-up, corral or harass game animals or furbearing animals.

PROTECTED—GRAY WOLF

Gray wolves are present in Montana and are protected by State and Federal law. To assist in wolf management, please report any wolf sightings or sign to the U.S. Fish and Wildlife Service (406) 449-5225, or the Montana Department of Fish, Wildlife and Parks, Kalispell regional office (406) 752-5501, or the Flathead National Forest (406) 755-5401.

- 2.5 feet tall
- 5-6 feet long
- 80-100 pounds
- Broad snout, round ears
- Color varies from white to black
- Long low howl

What can I do if I lose my license?

Duplicate licenses may be obtained by filing an affidavit stating your original license is beyond recovery, with your local game warden or with a Fish, Wildlife and Parks office. Upon payment of the specified fee, you may be issued a duplicate. Duplicate licenses are issued at the time of application.

What are Montana's residency requirements?

"Resident" means any person who has been a legal resident in the State of Montana for six (6) consecutive months immediately prior to purchasing a license, and who does not use resident privileges in any other state or country.

What is the difference between a license and a permit?

Licenses and permits are not the same. A license affords the holder the opportunity to kill a game animal, as specified on the license. A permit, on the other hand, merely awards the holder special privileges in filling his or her license, such as shooting an "antlerless" elk. A permit is not a second license. All permits are issued through the annual special license and permit drawings and must be used in conjunction with a valid hunting license.

What is the difference between a deer A and a deer B license?

The deer A license is valid for one deer during the general season and can be utilized in any deer hunting district in the state for the species and sex indicated for that hunting district under the general season regulations. There are some exceptions to this general statement and a sportsperson should check the regulations specific to the hunting district in which they wish to hunt.

The deer B license is valid for one deer subject to restrictions of seasons, species and sex, and hunting district(s). The deer B license is most often valid for antlerless deer. More than one deer B license per sportsperson may be available in some hunting districts.

What Are the Dates for the 1994 Season?

For your convenience in planning a hunt in 1994, the dates listed below reflect the earliest opening and latest closing dates for each species listed. It is your responsibility to check the hunting regulations for district specific regulations before going afield.

Backcountry Deer/Elk	Sept. 15-Nov. 27, 1994
Deer/Elk (gun)	Oct. 23-Nov. 27, 1994
Deer/Elk (archery)	Sept. 3-Oct. 16, 1994
Antelope (gun)	Oct. 9-Nov. 6, 1994
Antelope (archery)	Sept. 3-Oct. 8, 1994
Moose	Sept. 1-Nov. 27, 1994
Sheep	Sept. 1-Nov. 27, 1994
Goat	Sept. 1-Nov. 27, 1994
Black Bear	Apr. 15-June 15, 1994
Lion (Hunt)	and Sept. 3-Nov. 27, 1994
(Chase)	Sept. 15, 1994-Feb. 15, 1995
	Feb. 16, 1995-April 30, 1995

What archery equipment is legal to use during ARCHERY ONLY seasons?

- **Long Bow** - a bow of the Medieval English type with the limbs and handle one continuous piece. There is little or no curving in the limb when unstrung.
- **Recurve Bow** - a bow with laminations of wood and/or epoxy resin type material and curve forward at the limb tips.
- **Compound Bow** - a bow using a combination of recurve and longbow limb design in which the limbs may be straight, short, laminated or epoxy type, but wider at the tips and adjustable for poundage. A type of eccentric wheels and cables assist in drawing the bow for the mechanical advantage that peak weight is reduced at full draw.

- **Crossbows** - may not be used during ARCHERY ONLY seasons. They may be used during the rifle season only.
- **Archery Equipment Restrictions** - The following methods or devices are prohibited in taking game birds and animals:
 1. Any device that is attached to a long, recurve, or compound bow that holds an arrow at partial or full draw is prohibited during the ARCHERY ONLY season.
 2. The use of any chemical or explosive device attached to an arrow to aid in the taking of wildlife is prohibited.
 3. The use of any artificial light or any electronic device attached to any bow or arrow that aids in the taking or locating of any game animal or game bird is prohibited.

May I hunt with a bow and arrow during rifle season?

Yes, but you must conform to the rifle season regulations. This includes wearing a minimum of 400 square inches of hunter orange (fluorescent) material above the waist.

What are block management areas?

In 1985, the Department of Fish, Wildlife and Parks instituted a program to help landowners administer public hunting on private lands while opening up numerous blocks (comprising thousands of acres) of private land to hunting by the public. Most are in eastern Montana (Region 7). For information on the Block Management Program, contact any regional office or call the Department Field Services Division at (406) 444-2602. In most cases printed listings of cooperating landowners are not available. Sportspersons may be directed to cooperating landowners based on individual requests.

The Department of Fish, Wildlife and Parks does not provide any maps other than those included in these regulations. Agencies listed below may be contacted to supply area maps. Maps range in price from \$1.25 to \$5.00.

- Individual National Forest and travel maps of each National Forest that show restrictions on vehicular use can be obtained by writing to the U.S. Forest Service, Northern Region, Federal Building, P.O. Box 7669, Missoula, MT 59807; (406) 329-3511.

SPECIAL SEASONS & TENTATIVE QUOTAS

- Application must be postmarked by the U.S. Postal Service no later than June 1.
- Both resident and nonresident sportspersons are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.
- Nonresidents must hold a Big Game Combination License or a Deer Combination License to be eligible to apply for a special deer permit.
- Sportspersons must hold a deer A license to use a deer permit awarded through the special drawings.
- Holders of a landowner sponsored Deer Combination License may apply for a special deer permit only in the hunting district in which they are authorized to hunt deer.
- A special deer permit is not a second license. All permits are issued through the special license and permit drawings and must be used in conjunction with a valid deer A license. Hunting districts offering a deer permit are: 240-01, 291-01, 441-01, 455-01, 530-01, and 650. **Exception:** in hunting district 260-03, the deer permit must be used with a deer B license issued for hunting district 260-03. See page 18.
- Because some licenses and permits are valid only in a portion or portions of specified hunting districts, sportspersons should carefully note the district choice for which they are applying. A copy of the legal descriptions for "portion of district" areas is available at any Fish, Wildlife and Parks Office or by mail from the Helena Headquarters, Wildlife Division, 1420 East Sixth Avenue, Helena, MT 59620.

Landowner Preference

- Montana landowners who qualify may receive preference in the deer B licenses and/or deer permits special drawings. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. If the license is valid for a portion of the hunting district only, the landowner must own land within that portion. The land must be used primarily for agricultural purposes.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or employed ranch manager. Only one person may use or designate preference in a partnership or corporation.

SPECIAL SEASONS & TENTATIVE QUOTAS

- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- Both resident and nonresident sportspersons are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.
- Residents and nonresidents are required to purchase a general elk license prior to applying for a special elk permit or the A-7 antlerless elk license.

- A sportsperson who receives a special permit to hunt antlerless elk during all or any portion of the regular season (Oct. 24-Nov. 28) is restricted to taking only an antlerless elk in the district or the portion of a district for which the permit is valid (whether during the general or ARCHERY ONLY season). Permit holders are entitled to hunt elk, as specified in the 1993 big game hunting regulations, in all other elk hunting districts OR if your permit is valid for a portion of the district only, in all other portions of that hunting district (except those districts or portions of district restricted to "hunting by permit only").
- This restriction also applies if a permit is valid for only a portion of the regular season (for example, Oct. 24-Nov. 7 or Nov. 15-Dec. 15).

- Because some licenses and permits are valid only in a portion or portions of specified hunting districts, sportspersons should carefully note the district choice for which they are applying. A copy of the legal descriptions for "portion of district" areas is available at Fish, Wildlife and Parks Regional Headquarters and by mail from the Helena Headquarters, Wildlife Division, 1420 East Sixth Avenue, Helena, MT 59620.

Landowner Preference

- Montana landowners who qualify may receive preference in the elk permit and A-7 antlerless elk license special drawings. To qualify, the applicant must own or be contracting to purchase at least 640 acres of contiguous land used by elk or where elk are known to occur at anytime during the year. If the permit is valid for a portion of the hunting district only, the landowner must own land within that portion.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or a person employed by the landowner. Only one person may use or designate preference in a partnership or corporation.

What is an A-7 License?

- An A-7 elk license is a special type of elk hunting license that allows the holder to shoot only antlerless elk in the district for which the license is valid. A-7 licenses are available in only a very limited number of areas and, in general, in areas where no other opportunities to harvest antlerless elk exist.
- If a sportsperson applies for and receives an A-7 license, these conditions apply:
 - 1) Sportspersons may not hold both a general elk license and a special A-7 license.
 - 2) The holder of an A-7 license must hunt only antlerless elk and must confine their elk hunting only to the hunting district for which their A-7 license is valid.
 - 3) They may not hunt elk (bull or antlerless) anywhere else in the state during the 1993 season.
- A-7 licenses are available only through the annual special drawings. Both residents and nonresidents may apply for these licenses. If successful in drawing an A-7 license, the sportsperson will be sent a letter of notice along with A-7 license purchasing information.
- The following districts offer A-7 antlerless elk licenses through the special drawings: 240, 250, 261, 270, 282, 311, 329, 520 and 843.

SPECIAL SEASONS & TENTATIVE QUOTAS

- Moose licenses are awarded through special drawings.
- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- A new 1991 law states that an applicant who receives a moose license is not eligible to receive another license for moose for the next succeeding 7 years. For example, if you received a moose license in 1991, you may not apply for another until 1999.
- License holders may legally take one moose subject to all specifications on the license issued.
- Sportspersons harvesting a moose must leave evidence of sex naturally attached to the carcass.
- There is no ARCHERY ONLY season for moose.

Legislation authorizes the Fish, Wildlife and Parks Commission to provide for the auction of a moose license each year. This license authorizes a sportsperson to take an antlered bull moose in any district of their choice. This license is not a part of the seasons proposed and if this license holder is successful, the moose will not be counted against the district quota. This license holder may hunt only in areas open to moose hunting.

LICENSES & GENERAL INFORMATION

There are two types of bighorn sheep licenses: Limited and Unlimited.

Limited Licenses - These licenses are awarded only through the special drawing and are designed to limit the number of sportspersons in a specific hunting district(s). Sportspersons may apply for one limited license area only and it must be their first and only district choice, with the exception of an adult ewe which may be listed as a second district choice.

- A new 1991 law states that applicants who receive a limited either sex, legal ram (or in 1991 a one-half curl ram sheep) license are not eligible to receive another sheep license for the next succeeding 7 years. For example, if you received one of the limited either sex, legal ram, or one-half curl ram sheep license in 1991, you may not apply for another sheep license until 1999.

Unlimited Licenses - These licenses are awarded only through the special drawing process. The unlimited license area must be listed as the first choice and only choice.

General Information for Both Limited and Unlimited Licenses -

- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- Each bighorn sheep license is valid in the hunting district(s) and for the time period specified on the license.
- License holders may legally take one bighorn sheep, subject to all specifications on the license issued.
- A sportsperson harvesting a bighorn sheep must, if required by the department, physically return to the kill site for inspection and on demand show the complete head and cape intact.
- A sportsperson harvesting a bighorn sheep with a license valid for a "legal ram" must not alter the head and horns as to affect determination of legality.
- A sportsperson harvesting a bighorn ram must personally present the complete head and cape **intact** within 48 hour to any Fish, Wildlife and Parks office, game warden, or designated employee in the administrative region where the bighorn ram was taken. At that time, a transportation permit will be issued.
- Bighorn ram horns greater than one-half curl must be plugged or pinned at any Fish, Wildlife and Parks office within 10 days after harvest. A listing of designated personnel and phone numbers will be provided to all bighorn sheep license holders.
- There is no **ARCHERY ONLY** season for bighorn sheep.
- It is illegal to possess a sheep head picked up in the wild.
- Legislation authorizes the Fish, Wildlife & Parks Commission to provide for the auction of a bighorn sheep license each year. This license authorizes the sportsperson to take a "legal" or greater ram in any district(s) of their choice. This license is not a part of the seasons proposed and if this license holder is successful, the sheep will not be counted against the district quota. This license holder may only hunt in areas open to hunting (i.e., if an unlimited area closes due to reaching the quota, the license holder may not hunt in that area).

JUDGING A "LEGAL RAM" ($\frac{3}{4}$ Curl)

When a straight line extending from the front base of the horn through any portion of the eye opening intercepts any portion of the horn, the ram is legal. If the horn is not long enough to be intercepted by the line, the ram is not legal.

Base of the horn shall be considered as the point where the horn meets the hairline of the head. See illustration to the right.

Determination of a legal ram should be made from a broadside view of the head.

Successful applicants for sheep should contact this department if they need the Montana Guide to Bighorn Sheep.

LIMITED LICENSES

Both resident and nonresident sportspersons are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a region quota.

- Nonresidents have no opportunity to draw licenses in limited districts which are not listed below: 100-02, 121-01, 123-02, 123-03, 124-01, 124-02, 210-01, 210-02, 213, 216-01, 216-02, 315-01, 315-02, 340-03, 421-02, 422-01, 422-02, 423-01, 423-02, 424-01, 424-02, 455, 680.

- Licenses are nonrefundable and a sportsperson may not change the selected hunting district, even if a district closes before the sportsperson has participated in a hunt.

- Unlimited license hunting districts will close on 48 hour notice. Some unlimited sheep hunting districts are assigned a harvest quota. When the quota is reached or approached (whether kills are by sportspersons or otherwise), the sheep season in that district will close. Any ram harvested by a sportsperson will be counted against the quota.
- Current harvest information may be obtained by calling the appropriate Fish, Wildlife and Parks Regional Headquarters during normal business hours. See Regional Headquarters listings on page 6.
- The department makes an attempt, through news releases and back country contacts, to inform sportspersons of bighorn sheep closures. However, it is the sportsperson's responsibility to be aware of season status.
